Dear Mr. Bonazzi:

Your first issue of LATITUDES arrived today.

A cursory perusal of pages 46ff. persuades me that Ronnie Dugger's latitude is very wide - so wide that, while he could include transparencies and books obviously deted, he either knew nothing about or censored the two that are:

a. The first;

b. The most recent; and

c. I think the most complete.

This does not in any way change my husband's letter of March 24.

Sincerely,

Lillian Weisberg
